CORRECTIONS

In my note "on Collapsing of Strata" published in the Journal of the Indian Society of Agricultural Statistics, Vol. XVIII, No. 2 (pages 1-3), following corrections be made:

● In equations (1) and (2), the upper limit in the summation should be replaced by L.

● The estimate of variance of (4) is positive only under certain conditions and not generally true.

● $(N_{i1}\mu_{i1} - N_{i2}\mu_{i2})$ should be replaced by

$(N_{i1}^{2-p}\mu_{i1} - N_{i2}^{2-p}\mu_{i2})$ in the expression for the expected value of (8).
