### I. SAMPLING THEORY OF SURVEYS WITH APPLICATIONS

*P.V. Sukhatme, B.V. Sukhatme, S. Sukhatme and C. Asok*

It is the third Revised Edition containing all the principal developments in the theory of sampling with examples and exercises.

Price : Rs.150.00

### II. STATISTICAL METHODS IN ANIMAL SCIENCES

*V.N. Amble*

The book has been prepared for specially meeting the needs of the students and the research workers in animal sciences wishing to learn the basic principles and the principal procedures of statistics for use in planning, investigation and in analysing and interpreting the data. The emphasis in the book is on the principles and procedures with an attempt at elucidating the logic without too much of mathematics. A special feature of the book is the illustrations of the procedures through examples all taken from the field of animal sciences which would help the research workers in animal sciences in understanding the applications all the more easily. Only basic knowledge of algebra at elementary level is assumed and the few derivations of procedures from statistical theory given in the book have been presented in such a manner that while they meet to some extent the logical inquisitiveness of a class of readers they could be omitted without loss of a clear understanding of the procedures.

Price : Rs.75.00 (Paper back) Rs.100.00 (Hard bound) (Inland)  
and \$10.00 (Foreign)

### III. IMPACT OF P.V. SUKHATME ON AGRICULTURAL STATISTICS AND NUTRITION

*Edited by Prem Narain*
